- Multi-layer material for excellent filtration
- TÜV-certified for trusted results
- Hygienic closing system for easy disposal
- High-resistance synthetic material, made in Sweden

Highlights

Universal standard

The original Philips s-bag® can be used for all Philips and Electrolux Group (Electrolux, AEG, Volta, Tornado) vacuum cleaners with bag. Skip the hassle of endlessly searching for a dust bag, simply look for the s-bag® logo.

Ultra Long lasting performance

s-bag® Ultra Long Performance lasts 80% longer than traditional vacuum bags. The special synthetic material of the bag and the 5 L XXL capacity ensure optimum airflow to maintain the suction power of your cleaner for much longer.

XXL 5 L for extreme suction

The new high-performance synthetic material of this bag ensures optimum airflow and gives your vacuum cleaner extreme suction power during the entire lifetime of the vacuum bag. Use the XXL 5 L capacity of the bag and get extreme suction power even as the bag fills up!

Top filtration capacity

Thanks to excellent filtration in the multi-layer material, even the finest particles are captured, contributing to a better cleaning result and clean air quality in your home, and helping you get rid of airborne particles such as allergens.

TÜV certified

The Philips s-bag® Ultra Long Performance has been independently tested and certified by the TÜV Rheinland Group.

Hygienic closing system

The patented closing system of the Philips s-bag® allows for easy and clean disposal, without spilling the trapped dirt that is inside.

Highly resistant material

The s-bag® Ultra Long Performance is made of a highly resistant synthetic material, produced in Sweden.
