

#### Steam generator iron

- Max 6 bar pump pressure
- Up to 360 g steam boost
- 1.8 l water tank capacity
- Detachable water tank

GC8715/20

## Ultra-fast ironing

with powerful continuous steam

The Philips PerfectCare Performer steam generator iron ensures a truly simple, powerful and burn-free ironing experience. The powerful continuous steam penetrates deeply and continuously into the fibre to remove creases easily.

### Benefits

#### No temperature setting needed; no burning, guaranteed

- Go from ironing jeans to silk; no need to change temperature setting
- Safe to leave the hot soleplate on the ironing board
- Tested and approved by independent textile experts

#### Fast ironing with continuous powerful steam

- Integrated easy-clean system for long-lasting performance
- Powerful steam for ultimate crease removal
- Save energy with ECO mode

- Philips' best gliding with increased scratch resistance

#### Extra convenience

- Large detachable water tank for easy refilling
- Lightweight steam generator for easier handling
- Safe and secure carry lock

**PHILIPS**

## Features

### 1.8 l detachable water tank

The detachable water tank allows you to easily refill anytime without stopping the appliance. It has a large filling hole so you can simply fill the water tank under the tap. It has a 1.8 l capacity, so you get the convenience of up to 2 hours of continuous use, with no need to top up the tank.

### Lightweight steam generator

Thanks to revolutionary ProVelocity technology, we've been able to make a powerful steam generator iron that is much lighter than traditional models. This means it's more stable when positioned on your ironing board and carrying it around is much easier.

### OptimalTEMP technology

With OptimalTEMP technology you'll no longer have to waste time changing temperature settings, waiting for the temperature to adjust or pre-sorting clothes. Iron all fabrics, from jeans to silk, with no burning guaranteed thanks to the perfect combination of temperature and continuous powerful steam.

### Safe carry lock

Your steam generator iron includes a safe carry lock, which securely fastens your iron to its base without the risk of it slipping or someone touching the hot soleplate. It ensures safe and easy transportation around the house, to and from storage.

### Safe rest

Innovative OptimalTEMP technology guarantees no burning on any ironable fabric. As well as the reassurance this provides whilst ironing, it also means you can leave the hot iron soleplate directly on your cotton ironing board without causing any damage. This helps to reduce any discomfort to your wrists, as you won't need to lift the iron to and from its base as often.

### Smart Calc clean

Regular descaling protects your iron and maintains steam performance. The Smart Calc-Clean system is an integrated descaling and cleaning function to extend the lifespan of your steam generator iron. The iron will remind you with both light and sound that cleaning and descaling is needed. Simply place your iron onto the Smart Calc-Clean container and start the process. It takes approx. 2 minutes for the dirty water and scale to be collected; your steam generator will beep once it's finished and ready to use again.

### Tested and approved

This iron is tested and approved by independent textile expert institutes, such as DWI, IWTO and Woolmark, for its excellent ironing performance. The Woolmark Apparel Care programme helps consumers to identify quality laundry products that are approved by The Woolmark Company for use on wool products. Philips, with its exclusive OptimalTEMP technology, is so far the only ironing brand to be certified with the Gold standard from Woolmark. You can be confident that our Woolmark-approved apparel care products are ideal for any wool garments.

### Ultra-powerful steam

An ultra-fast ironing experience can be yours with revolutionary technology. The powerful and continuous steam tackles even tough creases, and thicker fabrics are smoothed out with ease and speed. Plus there's an extra steam boost if needed, perfect for vertical steaming or stubborn creases.

## PerfectCare Performer

### Energy saving

ECO mode allows you to save energy without compromising your ironing results. The ECO mode uses a reduced amount of steam, but still a sufficient amount to iron all your garments.

### SteamGlide Plus soleplate

The SteamGlide Plus soleplate is durable and non-stick because of the ceramic finishing. It has an integrated titanium oxide layer for superior gliding performance.

## Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

### Technology

For all ironable fabrics	Yes
No burns	Yes
OptimalTEMP technology	Yes
