Ultra-fast ironing

with powerful continuous steam

Philips PerfectCare Performer steam generator iron ensures a true simple, powerful, and no burn ironing experience. The powerful continuous steam penetrates deeply and continuously into the fibre to remove creases easily.

No temperature setting needed, guaranteed no burn

- Iron jeans to silk, no need to change temperature setting
- Safe to leave the hot soleplate on the ironing board
- Tested and approved by independent textile experts

Fast ironing with continuous powerful steam

- Powerful steam for ultimate crease removal
- Integrated easy clean system for long-lasting performance
- Philips best gliding with increased scratch resistance
- Save energy with ECO mode

Extra convenience

- Lightweight steam generator for easier handling
- Large detachable water tank for easy refilling
- Safe and secure carry lock

Highlights

1.8 L detachable water tank

The detachable water tank allows you to easily refill anytime without stopping the appliance. It has a large filling hole so you can simply fill the water tank under the tap. It has a 1.8 L capacity, so you get the convenience of up to 2 hours of continuous use, with no need to top-up the tank.

Lightweight steam generator

Thanks to revolutionary ProVelocity technology, we've been able to make a powerful steam generator iron that is much lighter than traditional models. This means it's more stable positioned on your ironing board and carrying it around is made much easier.

OptimalTEMP technology

With OptimalTEMP technology you'll no longer have to waste time changing temperature settings, waiting for the temperature to adjust or pre-sorting clothes. Iron fabrics from jeans to silk, with guaranteed no burns thanks to the perfect combination of temperature and continuous powerful steam.

Safe carry lock

Your steam generator iron includes a safe carry lock which securely fastens your iron to its base without the risk of slipping or someone touching the hot soleplate. It ensures safe and easy transportation around the house, to and from storage.

Safe rest

Innovative OptimalTEMP technology guarantees no burn on all ironable fabrics. As well as the reassurance this provides whilst ironing, it also means you can leave the hot iron soleplate directly on your cotton ironing board without causing any damage. This helps to reduce any discomfort to your wrists, as you won't need to lift the iron to and from its base as often.

Smart Calc clean

Regular descaling protects your iron and maintains steam performance. The Smart Calc-Clean system is an integrated descaling and cleaning function to extend the lifespan of your steam generator iron. The iron will remind you with both light and sound that cleaning and

descaling is needed. Simply place your iron onto the Smart Calc-Clean container and start the process. It takes approx. 2 minutes for the dirty water and scale to be collected, your steam generator will beep once it's done and ready to use again.

Tested and approved

This iron is tested and approved by independent textile expert institutes such as DWI, IWTO and Woolmark, for its excellent ironing performance. The Woolmark Apparel Care program helps consumers identify quality laundry products that are approved by The Woolmark Company for use on wool products. Philips with its exclusive OptimalTEMP technology is so far the only ironing brand able to be certified with the Gold standard from Woolmark. You can be confident that our Woolmark-approved apparel care products are ideally suited for any wool garments.
