Demo Mode and Hotel Mode Instructions for Harman Kardon Enchant Soundbars

DEMO MODE

Description

1. Remote control function is disabled
2. Bluetooth and Wi-Fi are disabled
3. The soundbar will not enter standby mode
4. Demo mode will remain active, even after power cycle
5. The soundbar features a general version of the MultiBeam surround effect that can work for most rooms.
6. The soundbar will features a default volume level that resets after 90 seconds of inactivity.
7. Only VOLUME UP, VOLUME DOWN, and SUBWOOFER PAIRING buttons are enabled on the soundbar.
8. The soundbar will automatically detect ONE active demo source input: OPTICAL, AUX, or HDMI ARC connectors. Once the soundbar has detected the demo source input, the soundbar will remain on this input and will not change.
9. If a subwoofer is paired, a user can mute the subwoofer by pressing the VOLUME UP and DOWN buttons at the same time.

To Enable Demo Mode

1. Remove the power cable from the soundbar.
2. Connect ONE audio source to the soundbar back-panel connectors: Optical, Aux, or HDMI ARC.
3. Plug in the power cable while pressing and holding VOL UP & SOURCE buttons on the soundbar top-panel.
4. The front display will display "DEMO" to indicate that the bar is in demo mode.
5. The soundbar will enter subwoofer-pairing mode. If connecting to a subwoofer, press the PAIRING button on the subwoofer to connect

To Disable Demo Mode

Repeat the Steps to Enable Demo Mode

HOTEL MODE

Description

1. Hotel mode will remain active, even after power cycle
2. Installer can define the default source input when the product is turned on after standby mode. A user can change the source at any time during operation.
3. Installer can define the maximum volume level
4. The soundbar assumes a comfortable listening level when powered on.

To Enable Hotel Mode

1. Press and hold the remote control DIM button for 3 seconds, then quickly press SKIP BACK, then SKIP FORWARD. The Display will show "Hotel".
2. The soundbar will enter subwoofer-pairing mode. If connecting to a subwoofer, press the PAIRING button on the subwoofer to connect.
3. The display will show "choose default source". Press the SOURCE button on the remote control or top-panel, then press the POWER button to confirm.
4. The display will say "set max volume". Press the VOLUME UP and VOLUME DOWN buttons to set the maximum volume, then press the POWER button to confirm.
5. Front display will display "READY" to indicate that the bar is in Hotel mode.

To Disable Hotel Mode

Repeat the Steps to Enable Hotel Mode
