- ✓ Stainless Steel Tub
- ✓ 8.5kg Capacity
- ✓ Smart Diagnosis™ 2.0
- ✓ Transparent Glass Lid
- ✓ 950rpm
- ✓ 12 Washing Programs with 6 Options

Inverter Direct Drive Motor

LG Inverter Direct Drive Motor - combines the direct drive motor with inverter control to provide an ultimate washing experience

Less Noise - with less moving parts compared to other motor systems it creates less noise

Greater Durability - the direct drive motor system is at the heart of the machine, that's why you get LG's 10 Year Parts Warranty on Inverter Direct Drive Motor.

On-Board Heater

The On-Board Heater allows this Top Loader to achieve a 60°C washing temperature when you need it, like when your washing sheets or towels. Higher temperatures help remove common household allergens and stubborn stains.

6 Motion Wash Technology

LG 6 Motion Wash Technology- LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle. Your washer works out the best combination to give you an outstanding wash, whilst also caring for your clothes.

Stainless Steel Tub

LG Stainless Steel Tub is more effective to help control bacteria growth than tubs made of plastic or containing plastic agitator or pulsator. A hygienic tub helps maintain a hygienic wash.
