Highlights

4.1 cm (1.6") display

Easy to read 4.1 cm (1.6") display with backlight

Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction.

Automatic Volume Control

Automatic Volume Control offsets variations in sound signal, which can be caused by distance, signal strength or the caller’s phone - so what you hear always remains consistent. Reducing the audio amplification for strong signals, and increasing it for weak ones, it means you can enjoy a smooth conversation without unwanted sound volume variation.

Caller ID*

Sometimes it is good to know who is calling before you answer. And our Caller ID lets you keep track of who is on the other end of the line.

Easy setup

Ultimate convenience through easy set up. Simplified installation - Plug & Play product

Menu in local languages

Enjoy easy set-up, navigation and control with intuitive menu available in local languages.

Non-slip grip

The rear of the handset is treated with a special texture for added comfort and better grip.

Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment.

Optimized antenna layout

Our optimized antenna layout ensures strong and stable reception – even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

Handset speakerphone

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.
Specifications

Convenience
- Menu structure in the handset: List Menu
- Speakerphone - talk handsfree
- Signal strength indicator: 3-bar indicator
- Battery level indicator: 3-bar battery icon
- Intercom - multiple handsets
