

Philips
TV antenna

- HDTV/UHF/VHF/FM
- Indoor
- 42 dB amplified

SDV6122/10

Enjoy enhanced digital performance

also works with analogue reception

This amplified antenna with an ultra low noise amplifier and variable gain control was designed to provide the best reception for Digital and Analogue broadcasts. Powered by 230-240 V or 12 V DC it is ideal for use in the home, on a boat, in a caravan or in a camper.

Benefits

Maintain the quality of your signal

- Boost your signal with up to 42 dB amplification
- Separate ON/OFF switch and memory gain control

Protects against signal loss

- Ultra low noise amplification

Easy installation

- Adjustable gain control and power LED

Easy to position

- Tilt and swivel positioning

Variable power supply

- Optional DC power supply

PHILIPS

Features

Adjustable gain control

Allows you to easily improve reception range

42 dB amplification

Up to 42 dB amplification boosts weak signals, expanding your reception range and allowing you to receive more signals over a greater distance.

Separate ON/OFF switch

Maintains the memory of your settings

Tilt and swivel positioning

330° radius with 120° tilt allows UHF element to be adjusted for maximum signal

Optional DC power supply

Portable indoor antenna for use in the home, on a boat, in a caravan or in a camper. 220 V AC (included) or 12V DC (not included)

Ultra low noise amplification

Provides noise free HDTV reception
