PHILIPS

Highlights

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

5 year warranty on LED system

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with

a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

IP44 - weather proof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP44: it is protected against splashing water, this product is most common and ideal for general outdoor use.

Integrated solar panel

This Philips myGarden Solar light has an integrated solar panel as part of the light. The light is free of cables and emits up to 100 lumens of light, enough to illuminate a defined area or highlight a feature.

No power cables required

Philips myGarden Solar takes the hard work and hassle out of outdoor installation, requiring just a few simple minutes to place in your garden – even if you've never installed outdoor lighting before. With no mains power cables to worry about, there is lots of flexibility for placement, since you don't need to be close to a power socket.

Solar energy

Philips myGarden Solar lights are designed to make the most of the energy they receive from the sun, for light that lasts longer. With no electricity consumption at all, it helps you save money on your electricity bills and do your bit for the environment.

Specifications

Design and finishing

- Material: aluminium, synthetics
- Color: antracit

Extra feature/accessory incl.

- Day-and-night sensor
- Fully weatherproof
- Solar Energy
- 5 years warranty

Product dimensions & weight

- Height: 13.6 cm
- Length: 16.1 cm
- Width: 16.1 cm
- Net weight: 0.590 kg

Technical specifications

- Mains power: 3.7 V
- Bulb technology: LED, Safety Extra Low Voltage
- Number of bulbs: 1
- Wattage bulb included: 1 W
- Light color: warm white

- Total lumen output fixture: 100 lm
- LED
- Lifetime up to: 15,000 hrs
- IP code: IP44, protection against objects bigger than 1 mm, protection from splashed water
- Class of protection: III - safe extra low voltage
- Light source equivalent to traditional bulb of: 11 W

Service

- Warranty: 5 year(s)

Packaging dimensions & weight

- Height: 17.8 cm
- Length: 17.3 cm
- Width: 15.3 cm
- Weight: 0.796 kg

Miscellaneous

- Especially designed for: Garden & Patio
- Style: Contemporary
- Type: Wall light

Issue date 2018-10-05

Version: 3.0.1
