

**PHILIPS**

## Philips MiniVac Handheld vacuum cleaner

FC6142/60

- 4.8V battery
- Bagless Cyclonic
- Crevice, brush tool, squeegee
- Wet & dry

## Powerful MiniVac for a better cleaning result

### Wet & Dry system and aerodynamic nozzle

- Slim charging base (for wall or table)
- 2-stage bagless cyclonic airflow for optimal filtration
- Aerodynamic nozzle design for a better dust pick-up
- Looped handle ensure optimum grip
- One-step click-off nozzle for easy emptying
- Powerful 3.6 V NiMH batteries

# Highlights

## Slim charging station

You can store the Philips Mini Vac on a convenient charging base, mounted on a wall or placed on a table. This means the Mini Vac, with its powerful rechargeable battery, is always ready when you are.

## 2-stage bagless cyclonic

The bagless cyclonic airflow keeps the dirt inside rotating to ensure optimal, high suction power and lasting cleaning performance. Its 2-stage filtration system ensures that, once inside, the dirt cannot escape. The first filter blocks most dirt, while the second filter traps the finer dust particles.

## Aerodynamic nozzle design

The aerodynamic nozzle design of the Philips MiniVac is created to ensure an optimum dust pick-up of even the most fine dust particles. The ergonomic shape of the nozzle helps you to clean even the most hard-to-reach areas.

## Comfortable grip

The Philips Mini Vac has a looped handle that ensures optimum grip. You can grab the Mini Vac in any way you like.

## One-step click-off nozzle

The Philips MiniVac vacuum cleaner is easy and quick to empty and hygienic to clean. The Philips MiniVac has a nozzle that easily clicks off in just one step, so you can empty the Mini Vac without touching the dirt.

## Powerful 3.6 V NiMH batteries

The powerful longer-lasting Nickel-Metalhydride (NiMH) batteries of the Philips MiniVac do not cope with memory effect. This effect reduces the capacity of the battery over time, reducing the runtime. This Mini Vac with NiMH batteries ensures longerlasting power versus products with the standard Nickel-Cadmium (NiCd) batteries that do have memory effect.

# Specifications

## Weight and dimensions

Weight of product: 1.4 kg  
Dimensions of product (LxWxH): 460 x 160 x 160 mm  
Dimensions of packaging (LxWxH): 508 x 335 x 490 mm

## Performance

Vacuum (max): 2.9 kPa  
Battery voltage: 4.8 V  
Suction power (max): 6 W  
Airflow (max): 530 l/s  
Charging time: 16-18 hour(s)  
Input power (max): 56 W  
Sound power level: 76 dB  
Runtime: 9 minute(s)

## Design

Design features: Translucent dust chamber  
Color: Blue

## Filtration

Dust capacity: 0.5 l  
Filter system: Wet and dry system

## Nozzles and accessories

Accessories included: Charging base
