- Distinctive geometric design. Easy placement

PHILIPS

Soundbar 3.1 with wireless subwoofer
400 W max. Wireless subwoofer Dolby Atmos®, DTS Play-Fi compatible, Connects with voice assistants

TAB8805/10

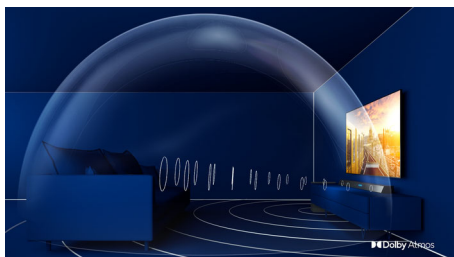

Highlights

Powerfully cinematic

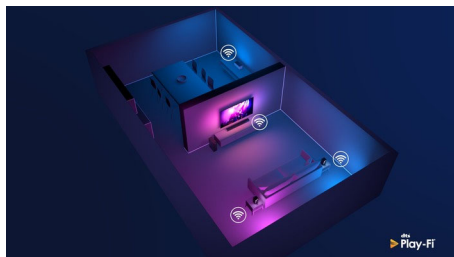

This soundbar brings 300 W of rich sound to everything you watch and every track you love. 3.1 channels fill any room with spellbinding soundtracks, thunderous effects and crystal-clear dialogue. The wireless subwoofer adds impact to every explosion and every beat.

Dolby Atmos®

Increase the drama no matter what you watch. This Dolby Atmos-compatible soundbar reproduces depth as well as height, creating virtual three-dimensional surround sound that flows above and around you.

Play-Fi. Multi-room and more

Easy Play-Fi compatibility will make this soundbar the star of your multi-room set-up. You can sync Play-Fi-compatible speakers for multi-room audio or even create a true surround-sound system—all via the Philips Sound app or the Play-Fi app.

All of your favourite sources

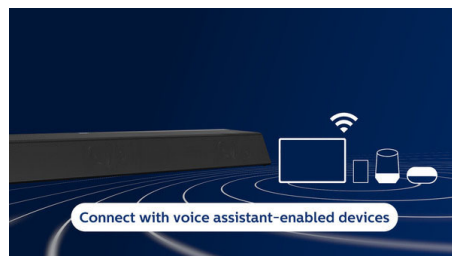

For music, Spotify Connect lets you stream Spotify's best-quality signal over Wi-Fi. You can also stream hi-res playlists from your mobile device via Apple AirPlay 2 or Bluetooth. For movies and gaming, 4K pass-through lets you connect 4K HDR video sources with no loss of resolution.

HDMI eARC

Lose nothing from the mix when you're immersed in the drama. This soundbar is compatible with HDMI eARC, a high-speed connection that lets you experience the full

effect of advanced audio formats like Dolby Atmos. The soundbar also has dual HDMI inputs.

Connect with voice assistants

Ask Alexa-enabled devices, or any speaker that works with the Google Assistant, to play music through the soundbar. Prefer Siri? This soundbar works with Apple AirPlay 2, so you can ask her too. Turn the music up. Skip tracks. All completely hands-free.

Low profile. Easy placement

The distinctive geometric design has a low profile, making this soundbar easy to place under or alongside your TV. The included wall brackets keep your options open and the powerful wireless subwoofer looks great freestanding.
