^{*1} For typical Household use. Regular maintenance is essential for optimal performance, Periodic rinsing is required

^{**2} Compared to Philips steam irons with an average weight of 2 kg and a heat-up time of approximately 2 minutes

^{***3} It is recommended to use the rinsing function after every month of use to maintain good steaming performance. If you live in an area with hard water, use the function more frequently

^{****4} Based on Steamrate, compared to Philips Steam iron (DST6120) in default mode

^{*****5} 1800W at 240V

^{*****6} Only use the Style Mat on a flat, heat- and steam-resistant surface. Steam may damage or cause discoloration of certain material finishes or furniture

Ultimate convenience: No setup, no hassle, Iron-like results, without the bulk, One Turn, 2 functions, Unlimited Freedom, Rotating head for precision or speed - your fabric, your choice, Compact, sleek design: fits beautifully into any home

Highlights

No Hassle

Powerful enough for full ironing sessions yet ready in seconds for a last-minute touch-up, the compact Philips OneTurn makes garment care effortless. No setup, no waiting—just crisp, wrinkle-free results whenever you need them. Designed for speed and flexibility, it comes with the convenient StyleMat—a lightweight, foldable ironing mat that can be used both vertically and horizontally. Its multi-layer construction helps manage heat and moisture during use, creating a practical ironing surface whether you choose to steam or iron.⁶

Iron-like results, no bulk

Experience full ironing power without the bulk of a traditional steam iron. Our innovative technology delivers powerful, consistent steam with guaranteed no leaks¹ for crisp, iron-like results on any fabric - from delicate silks to structured cottons.

Vertical & horizontal ironing

Crisp ironing and gentle steaming in one lightweight device. Seamlessly switch between horizontal ironing for structured pieces and vertical steaming for delicate garments with a simple turn. Consistent steam output (45g/min) at any angle ensures flawless results.

Seamless experience

OneTurn is 50% lighter and heats up faster than traditional steam irons². Small in size but big on performance, it's the perfect blend of speed, power, and convenience for modern lifestyles.

Precision & speed

Switch between precision and speed with our signature diamond shape soleplate. Use the I-shape for targeted touch-ups or the T-shape for one-stroke coverage. OneTurn adapts to your needs, offering the flexibility of a hybrid iron and steamer.

Optimal Temp

With OptimalTEMP technology, you get one perfect temperature for all ironable fabrics. No temperature settings required - just glide from silk to denim with confidence.

Steam Glide plus

Our exclusive SteamGlide Plus soleplate features a titanium layer and 6-layer coating for smooth gliding. Non-stick, scratch-resistant, and easy to clean - designed for effortless movement across all fabrics.

Steam boost

Tackle tough wrinkles with triple steam bursts (90g/min) that penetrate deep into fabric layers, smoothing even the most stubborn creases. Powerful ironing and steaming, ideal for thicker textiles and quick, last-minute touch-ups

Detachable water tank

The 200 ml removable water tank allows for easy, spill-free refills and quick maintenance - no need to turn off the device. Just detach, refill, and continue steaming

Specifications

General Specification

Product type: Hybrid Iron and Steamer
Heat up time: 45 seconds
Easy to set up and store: Yes
Rotating Head: Yes
Indicator light: Yes
Soleplate material: Aluminum
Rinsing Function: Yes
Soleplate name: Steam Glide plus
Calc clean reminder: No
Detachable water tank: Yes
Water tank capacity: 200 ml
Refill any time during use: Yes
Low water warning: No
Steam Modes (ECO/MAX): Yes
Vertical steaming: Yes
Power cord storage: Yes
Integrated power plug: Yes
Warranty/Guarantee: 2 years
OptimalTEMP Technology: Yes
Steam boost function: Yes

Safety

Automatic shut-off: Yes
Power On/Off Switch: Yes
Safe on all ironable fabrics: Yes

Country of Origin

Produced In: China

Weight and Dimensions

Soleplate dimensions: 197.8(L) x 116.7(W) mm
Product dimensions with steam plate at portrait orientation (WxHxL) (cm): 12x17x34
Product dimensions with steam plate at landscape orientation (WxHxL) (cm): 20x17x30
Package dimensions (WxHxL): 19.5 x 27.3 x 38
Power cord length: 2.5 m
Style mat dimensions (cm): 69(L) x 45(W)
Soft Board size (WxL) (cm): 45(W) x 85(L)
Stylemat weight (kg): 0.4 kg
Product Weight: 0.9 kg
Total weight with packaging: 2.5 kg

Technical Specifications

Power: Up to 1800 W⁵
Pressure: 0.85 bar
Steam Rate (Horizontal): 45g/min
Steam Rate (Vertical): 45g/min
Steam-on-demand: Yes
Steam boost: 90 g/min
Voltage: 220-240 V

Design

Color: Autumn Leaf (Terracota)
Secondary color: Red Ochre

Accessories

StyleMat: Yes
Resting dock: Yes

Sustainability

Packaging: Sustainable Packaging
Recycled plastic used: 33.3%
