

Philips Air Performer 8000 series 3-in-1 Air Purifier, Fan and Heater

AMF870/35

- Purifies rooms up to 70m2
- 270 m3/h Clean Air Rate (CADR)
- HEPA & Active Carbon filter
- Connected to Air+ App

Our smartest, most powerful all-in-one AirPurifier

Cleans, cools & heats

- Thoroughly purifies rooms up to 70 m2(2)
- Eliminates 99.97% of all unseen particles from the air(3)
- Cools you down with powerful clean airflow
- Warms the whole-room in no time with ceramic technology
- Automatically senses and adapts for best results
- Real-time air quality feedback with smart AeraSense sensors
- Sleep mode with ultra-quiet operation
- Energy-efficient design
- The Philips Air+ app: your smart, clean air solution
- Fully adjustable airflow for cooling, heating or circulation
- Proven virus removal, tested with H1N1 and HCov-E229 viruses
- Thoroughly tested for durability and quality.

*(1)CADR is tested by a certified third party lab, according GB/T18801-2015.
**(2)Calculated according to NRCC-54013 test standard, using cigarette smoke CADR tested according to GB/T18801-2015.
***(3)From the air that passes through the filter, tested with NaCl aerosol by a 3rd party laboratory.
****(4)Philips air purifiers have higher Clean Air Delivery Rate and energy efficiency with a NanoProtect HEPA filter than with a HEPA H13 filter, tested to GB/T 18801.
*****(5)The average sound level, based on GB/T4214.1-2017 (IEC 60704-1 - 2020, MOD). The sound level may change due to the conditions in your room and the location of the device.
******(6)Alexa and Google Home availability depends on your location.
*******(7)Microbial reduction rate test at external lab, with appliance running in turbo mode for 1.5 h in a test chamber contaminated with HCOV-229E virus aerosols.
********(8)From the air that passes through the filter, tested by third party lab OFI using house dust mite, birch pollen, cat allergens and fungal spores.
*********(9)Use of Artificial Intelligence (AI) in your appliance requires connection to the Air+ app via Wi-Fi.
**********(10)Not applicable to heating mode. In heating mode, it uses 2200 W to warm up the air.
***********(11)The recommended service life for the device is based on a theoretical calculation of the average annual regional values of harmful air particles outdoors and daily use of the air purifier for 16 hours in automatic mode.

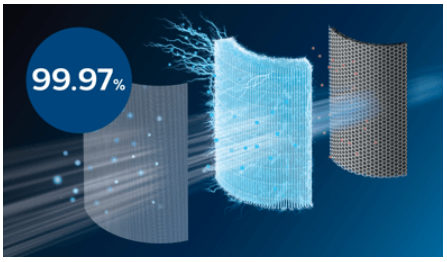

Highlights

Whole-room purification

It distributes powerful clean airflow to every corner of the room at a CADR (Clean Air Delivery Rate) of 270 m3/h(1), thoroughly purifying even large rooms up to 70 m2(2) to protect you from bacteria, virus, pollen, dust, pet dander, dust mites, harmful gases, odors and other pollutants.

NanoProtect HEPA filtration

Only Philips Air Purifiers have NanoProtect HEPA filtration with active carbon and pre-filter to remove 99.97% of particles as small as 0.003 microns(3). NanoProtect HEPA technology not only traps pollutants, but also uses an electrostatic charge to attract them, cleaning up to 2X more air than traditional HEPA H13 filtration, with higher energy efficiency(4).

Powerful cooling

Cools you with powerful clean airflow that feels natural and pleasant. With adjustable airflow rotation of up to 350 degrees, it will reach everywhere. Thanks to its bladeless design, it does not blow gusts of air, creating a consistent stream of fan airflow up to 1579 m3/h, fully customizable with 10 speeds to suit your comfort need.

Whole-room heating

Safe and soothing heating so you can stay cozy and comfortable on cooler days. With powerful PTC ceramic technology, it heats up in 3 seconds to warm you up in no time. Set your target temperature (1-37 C) and customize your warmth with 10 heater speeds or use the auto mode to heat your room efficiently with its energy-saving algorithm.

Always adapted to you

Powered by the AI (artificial intelligence) technology. Air Performer cleans the air, cools you down and heats the room when you need it. Philips' self-adapting technology with AI not only detects air quality, but also analyses your usage habits to customize purification performance while keeping noise levels and power consumption as low as possible(9).

Sensors and Display

Smart AeraSense sensors continually scan the air and report in real-time, immediately reacting to any increase in pollution to improve your air quality. Check your purifiers digital display or app to track ultra-fine pollutants (PM2.5), allergens, gases (VOCs and odors), temperature and humidity.

Ultra-quiet sleep mode

In sleep mode, it is quieter than a whisper with only 19 dB(A)(5) of noise level. Its light sensor detects when it is dark, turning the lights off automatically. In auto mode, it keeps noise levels to a minimum as it learns when it needs to perform or when it needs to be quiet.

Low energy consumption

Thanks to its energy-efficient design, it uses 40 W to purify the air(10), less than a traditional light bulb. In auto mode, the motor only runs when and for as long as needed, prolonging filter lifetime whilst saving energy.

The Philips Air+ app

Air+ app provides a smart experience that ensures you breathe clean and healthy air. The app tracks indoor and outdoor air quality in real-time and keeps you in control, at home or away, with a digital remote, a smart scheduler and hands-free via Alexa and Google Home(6).

Specifications

General Specification

Product Type: 3in1 Air Purifier, Fan and Heater
Technology: HEPA NanoProtect, AeraSense sensors,DualFlow
Color: Dark Grey, Silver
Primary Material: Plastic
Internet connectivity: Yes
Wi-Fi range: 2.4 GHz
Voice control: Yes

Technical Specifications

Maximum power: 2200W
Air quality sensors: PM2.5, Gas, Allergens Temperature, Humidity
Min. sound level: 19 dB(A)
Max. sound level: 46 dB(A)

Performance

CADR (Clean air delivery rate) (particle, GB/T): 270 m^3/h
Filter layers: HEPA, Active Carbon, Prefilter
Particle filtration: 99.97% at 0.003 microns
Max. room size: 70 m2
Fan airflow: 1579 m^3/h

Usability

Remote control: Yes
Oscillation: Up to 350°
Cord length: 1.8m
Scheduler: Yes (in app)
Automatic mode: Yes
Sleep mode: Yes
Speed settings: Yes (10 levels)
Air quality feedback: Color, numerical
Interface: Digital
Recommended filter change: 1 year

Energy efficiency

Stand-by power consumption: <2W
Voltage: 220-240V
Frequency: 50/60Hz

Maintenance

Warranty: 2 years

Compatability

Included Accessories 1: 3in1 HEPA filter
Related Accessories 1: FYM860/30

Country of Origin

Produced In: China

Weight and Dimensions

Product Height: 106.4cm
Product Weight: 8.5kg
Package Length: 38.6cm
Package Width: 38.1cm
Package Height: 115.2cm
Package Weight: 13.2kg
Product Length: 32.5cm
Product Width: 32.5cm

Safety feature

Child lock: Yes

Publication Date
