*Tested on Rice function with difference in whole cooking time vs. Philips HD2137

*** Philips multicooker inner pot is made of 5-layer ProCeramic+ coating vs. conventional inner pot that is made of non-stick coating

Highlights

Superior power with 35% faster

The Philips Multicooker delivers fast and effortless cooking with its superior 1500W heating system. Designed to reduce preheat time, it gets meals on the table up to 35% faster. Whether you're prepping a weekday dinner or hosting friends, you'll spend less time waiting for your meals to cook. Ideal for busy households, this multicooker brings both speed and flavour to your kitchen.

20 pre-set cooking programs

Create local favourites or international dishes in just a few taps. With 20 built-in programs, this Philips All-in-One Cooker gives you a smart solution to prepare soups, rice, stews, desserts, and more. It's versatile cooking made simple, at the touch of a button.

8L extra large capacity

Hosting dinner or meal prepping for the week? The generous 8L capacity makes this family-sized cooker your go-to for serving up large dishes. Whether you're making a stew, a whole chicken or a large batch of curry, the Philips 8L all-in-one cooker has space for it all.

9 safety protection systems

9 safety protection systems to ensure worry-free cooking.

Adjustable cooking functions

With adjustable cooking time, temperature and pressure, you can customize each meal to be your favorite taste.

ProCeramic+ coated pot

With ProCeramic+ coating, the pot is 5 times more durable than conventional ones. Better scratch resistant surface for longer use**.

Easy-to-clean

Easy-to-clean detachable inner lid design.
